LeetCode Github LinkedIn

PROFESSIONAL SUMMARY

Pre-final-year B.Tech Computer Science student (2024–2028) with hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, authentication flows, and AI-powered features. Solved 340+ problems on LeetCode. Seeking a Software Development or Full-Stack Development internship.

EDUCATION

Bachelor of Technology, Computer Science & Engineering **2024–2028**

G.L. Bajaj Institute of Technology and Management, Greater Noida | SGPA: 8.755

Higher Secondary Education (CBSE) — Priyanka Modern School, Dhampur, Bijnor Completed 2024

TECHNICAL SKILLS

Languages:	C++, JavaScript (ES6+) , Python (Learning)
Frontend:	HTML, CSS, React.js, Tailwind CSS
Backend:	Node.js, Express.js, REST APIs, Authentication
Database:	MongoDB, MongoDB Atlas
AI/API Integration:	Cloudflare AI, Gemini API, Magic Hour API
Tools & Deployment:	Git, GitHub, VS Code, Vercel, Render, Cloudinary
Core CS:	Data Structures & Algorithms

PROJECTS

AI Ad Generator — AI Advertisement Creative Studio **Oct 2026**

Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Cloudflare AI, Magic Hour API, Cloudinary

- Built and deployed a full-stack platform for creating AI-generated image and video ad creatives with customizable formats, platforms, languages, and visual styles.
- Implemented user authentication, reusable customizable templates, project management, an AI critic feature, and a dashboard for user activity.
- Integrated AI and third-party APIs to generate ad copy, headlines, descriptions, and creative prompts from user-defined campaign requirements.
- Troubleshot API limits and frontend–backend integration issues; stored media in Cloudinary and application data in MongoDB Atlas.
- Deployed the frontend on Vercel and the backend on Render as separate services.

Live Demo: https://ai-ad-generator-seven.vercel.app/

Budget Tracker App **Jul 2026**

Tech: HTML, CSS, JavaScript, React.js, Vercel

- Developed a responsive expense tracker to record daily expenses using custom categories.
- Built interactive charts for spending analysis and monthly insights.
- Implemented budget limits, spending alerts, and a dashboard; persisted data in browser local storage.

Live Demo: https://expense-tracker-pi-mauve-78.vercel.app/

ACHIEVEMENTS & ACTIVITIES

- Solved 350+ Data Structures and Algorithms problems on LeetCode.
- Hackathon participant — contributed to frontend development in a team project.
- Design Member, Yuktikula Club — designed posters and creatives for college events and festivals.
